This course sets out to provide delegates with a working knowledge of CCTV system requirements combined with the installation & commissioning of CCTV equipment. The objective is to provide participants with an in-depth understanding of CCTV basics and acquire the confidence and expertise to install a CCTV system. Topics covered include:

- Understanding lenses & lens setup.
- Understanding cameras & camera setup
- Cable and connection options / limitations.
- Monitors
- Understanding DVR's & DVR setup
- Basic IP networking
- Telemetry for PTZ cameras
- IR lighting
- Trouble shooting

CCTV SITE ASSESSMENT

Designed with project engineers and specifiers in mind, this course illustrates the fundamentals of an effective and efficient site survey & system design. Participants will become competent in structuring visits, knowing the necessary questions to ask, understanding how external factors could affect product specification, and the expertise to put a comprehensive system design together.

To book yourself on the course please fill out section 1 and 2 of this booking form. Further details for how to book or for any course queries can be obtained overleaf.
